CAREER PROFILE

I'm a developer seeking to work with awesome people. A few things that best describe me:

- *Semi-autodidact*.
- Passionate about programming. Loves to craft eloquent programs.
- Loves to explore behind the scenes working of things.
- Interested in design.

EXPERIENCE

Project Engineer

July 2018 - Present

e-con Systems India Private Limited in Chennai, IN

e-con Systems is an Embedded Systems company mostly focused on developing camera products. I'm currently a member of the Camera Team doing Research and Development work for the development of new platform camera products.

EDUCATION

B.E. in Computer Science and Engineering

August 2014 - April 2018

Saranathan College of Engineering

- *Life-changing* experience.
- Helped discover my design instincts.
- Learned and discovered a **lot** of new things, both in class and through exploratory learning.

Higher Secondary Certificate (HSC)

June 2012 - March 2014

Mahatma Montessori Matriculation Higher Secondary School

- Discovered that scoring marks is not the ultimate goal of studies.
- Came to know that *there's more to life than just getting grades* .

PROJECTS

Customized Wikipedia Offline Package Generator - An ongoing Node.js application that would allow users to download custom offline packages of Wikipedia articles.

Seminar Hall booking - A web application to book seminar halls (learning project).

தமிழ் அகராதி (Tamil Dictionary) - Android app - Aard 2 for Android customized as a Tamil dictionary.

lxconf - A few hacky scripts to automate the setting up of a new computer.

CERTIFICATION

Microsoft Technology Associate: Networking Fundamentals

Microsoft

2016

LANGUAGES

தமிழ் (Tamil) (Native)

English (Advanced)

INTERESTS

Contributing to open source projects

Volunteering for the Wikimedia Foundation

Editing Wikipedia (greatly improves researching skills!)

Learning new things (the autodidact's way)

Reading books (Wishlist)

CONTRIBUTIONS

A few notable contributions to open-source projects.

Python - project · contributions
My very first open-source project contribution. Though a very trivial one, I find it memorable.

Git - project · contributions
One of the open-source projects to which I made my initial contributions. I find the community to be a very diverse and knowledgeable one.

Wikipedia Android App - project · contributions
A few volunteer contributions that I managed to do during my free time. I'm mostly just filing bugs I find when I use the app, these days.

Wikimedia Commons Android App - project · contributions
A project to which I mostly do non-code contributions. This includes filing bugs, entering in discussions etc.

SKILLS & PROFICIENCY

HTML5 & CSS

Responsive website design

JavaScript

Node.js

Ruby

C

C++

Java

Git

Shell scripting
